

Cultivating Solutions Throughout the Entire Project Life-Cycle

E N E R G Y

At SAIC we provide innovative, integrated solutions to meet our customers' energy, environmental, and infrastructure challenges. By combining science, engineering, and technology expertise with business acumen, we address the technical and business interdependencies that determine success. From analyzing and integrating leading technologies to designing, building, and operating infrastructure systems, we apply deep domain expertise to strengthen our customers' enterprises and help them thrive in a complex world.

SAIC is a FORTUNE 500® scientific, engineering, and technology applications company that uses its deep domain knowledge to solve problems of vital importance to the nation and the world.
